OPERATIONAL REPORT

1. As previously arranged, 2584 was met by 35176 at 1200 hrs 12 April 1951 on a Salzburg street corner where 2584 entered 35176's private vehicle bearing C plates. In a subsequent meeting, which was held in the moving vehicle, 2584 turned over to 35176 an operational report which contained the following information:

pin
a. On 11 April 1951 at approximately 1800 hrs, 2584 proceeded to the main Salzburg RR station to contact a Project courier employed as a mail clerk on the Vienna-Innsbruck train. Contact was made to receive and pass on reports, etc. After contacting the courier and picking up and delivering material, 2584 noted Frank JANICEK, Salzburg Tagblatt editor, arriving at the RR station accompanied by his dog. Noting JANICEK who apparently did not see 2584, who is known to him, 2584 moved away from the courier. 2584 observed JANICEK proceed to the Vienna bound mail car and approach the courier who was in the uniform of a postal employee. 2584 further noted that JANICEK passed the courier an envelope and some cigarettes after a short conversation and departed.

b. After JANICEK's departure 2584 returned to the courier who stated that the man (JANICEK), who was not known to him, had approached him and asked that he undertake to deliver a pressing letter to Vienna. JANICEK further explained that it was absolutely necessary that the letter arrive in Vienna via this train, and that a female would pick the letter, which was enclosed in an unaddressed envelope, from the mail car. The courier agreed to take the letter and JANICEK handed the courier the envelope and a slip of paper on which the following was written: "Resi ANGERER, Salzburg, Bergheimerstrasse 4". JANICEK then explained that when the courier arrived in Vienna he would be approached by a young lady who would ask if he had a letter from "Resi ANGERER" in Salzburg, the courier would turn over the letter to the young lady. JANICEK concluding stated that the young lady in Vienna would be expecting the courier and that she would be definitely []

informed of the courier's arrival via telephone. JANICEK then left after giving the courier thirty cigarettes.

c. At this juncture the courier turned the envelope over to 2584 who examined it, noted that the glue was still wet, and opened the envelope. In the envelope 2584 found a four page report prepared by JANICEK. The report detailed local reaction to the dismissal of General MacArthur. Because of the eminent departure of the train 2584 was unable to copy or make notes from the report but gave it to the courier to deliver the letter as instructed.

d. After the departure of the courier on the train, 2584 attempted to reach 35176 by telephone without success. (Comment: 35176 has a telephone on a five party line which is usually in use or blocked by one of the subscriber's failure to return the receiver to the hook.)

2. Based on the report outlined above, 2584 was instructed by 35176 to have the courier continue to accept communications from JANICEK if he is again approached.

3. 2584 then turned over material received from indicated sources, and forwarded via reference XIRs, as follows:

a. Material forwarded via XIR-1182 was received from an observer who traveled from Vienna to Bad Voelau (NA758-K1613) by motorcycle at 1230 hrs 9 April 1951; observer returned to Vienna at 1800 hrs 9 April 1951. In the course of his observations the observer made several film exposures but after returning to Vienna and removing the film from the camera he accidentally exposed the film.

b. Material submitted via XIR-1183 was received from ~~HIRSCH-WAGNER, Lilly~~ who obtained the information after receiving instructions from ~~GEIRINGER, Friedrich~~ of the KPOe Sektionsleitung Sektion 6 (Gebiet I), Vienna XVI, to collect KPOe membership dues from personalities listed in the XIR. ~~HIRSCH-WAGNER~~ was appointed Sektionskassierin on 7 April 1951, and she collected dues from personalities mentioned on 9 April 1951.

4. Meeting was terminated at 2125 hrs after a subsequent meeting was arranged.
